

UNIVERSAL SORBENT MEDIA

Pads ★ Drum Toppers ★ Rolls ★ Railroad Rugs ★ Tubes ★ Pillows ★ Hand Towels ★ Wraps

AMBF's Universal grey colored sorbent products offer strong, maximum absorbency for cleaning up all water and petroleum-based spills, making them an effective tool used in petroleum drilling fields, industrial facilities, automotive repair, railroad spur transfer areas, aviation maintenance, emergency first responders and general workshop applications. They are used to easily clean up, absorb and contain spills, leaks or drips during emergency and everyday spills. AMBF's sorbents come in a variety of styles and sizes, or can be customized to suit your individual applications.

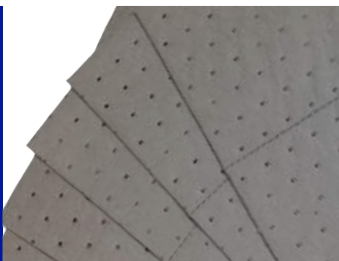

Our products assist you in meeting Compliance & Regulation standards under CFR 29, 40 & 49. AMBF's Universal Sorbents, are designed to encapsulate a wide variety of liquid spills and may hold up to 20 times its own weight delivering excellent absorbency.

Quick Use Guide:

★ Oil Field ★ Industrial Facilities ★ Automotive ★ Aviation ★ Railroad ★ Workshop ★ First Responder

All styles are produced to quickly and effectively absorb spills of oils, solvents, coolants or water.

PADS & DRUM TOPPER

- Melt Blown fibrous Polypropylene Pads have a strong grey cover stock to support its **superior absorbtion** weights and keep your environment clean
- **Standard and customized sheet sizes & weights** available for your application
- **Flexible and multipurpose** product which can be used on land for effective clean-up
- Efficiently **absorbs up to 20 times** its weight
- Most popular and used product style
- Drum Topper to fit standard **55 gallon container**

ROLLS & RAILROAD RUGS

- Choose from our **standard size rolls or customize** your roll width and length
- With our **in-house slitting and perforation**, AMBF can produce any style roll
- Rolls are put on a standard size **3" core** for simple ease of use
- Melt Blown fibrous Polypropylene Rolls are designed to wick water and oil based liquids fast to keep your environment clean
- **Ideal for large spill** containment coverage area

TUBES

- Ideal for containing leaks around equipment and general shop maintenance
- **Quick response** to unexpected contaminations
- Suitable for **containing large spill areas**
- Link multiple tubes together to isolate clean-up area
- **Easy to place** at differing angles and locations

PILLOWS

- Pillows will collect **both oil and water** based liquids
- **Contain your leaky spout and dispensers** with a Universal Absorption Pillow
- Helps keep your work environment clean
- **Ultra sonic welded seams** to provide stronger absorption containment
- Easy to place in **tight spaces** and super thick to hold **large volumes**

HAND TOWELS

- **Conveniently packaged** – tear off only what you need
- Wipe down parts and pieces during routine **maintenance of machinery**
- Designed to absorb small spills and **keep work area clean**
- Perfect for **everyday use**
- Low lint migration

WRAPS

- Used for covering **troubled well head leakage** or point of use **machinery leaks**
- **Reduces volume** of leak into the environment
- Perforated to **your specific size**
- Our **hook and loop straps** assist you in placement and containment
